

## **IRISH NATIONAL HYDROLOGY CONFERENCE 2011**

**Tuesday, 15<sup>th</sup> November 2011**

### **INTRODUCTION**

The joint National Committees of the International Hydrological Programme and the International Commission on Irrigation and Drainage have the pleasure of inviting you to participate in the twelfth annual Irish National Hydrology Conference to be held on Tuesday 15<sup>th</sup> November 2011 in the Radisson Blu Hotel, Athlone. The conference provides a unique forum for attendees to share policy developments, research results, and practical solutions to engineering hydrology issues. This year's conference encompasses a wide range of developments in the fields of surface water and groundwater hydrology.

### **MAIN TOPICS**

The conference will address a wide range of issues relating to hydrology and will draw on novel approaches in all aspects of hydrology, including:

- River Basin and Flood Risk Management.
- Water Resource Management.
- Climate Change
- Flood Forecasting and Warning
- Groundwater Hydrology
- Case Studies

The papers to be presented will demonstrate how the outcomes of recent hydrological research are being implemented by practitioners

### **ORGANISERS**

#### **International Hydrological Programme (IHP)**

The UNESCO international scientific co-operative programme in hydrology and water resources, the IHP, was established to act as a catalyst to promote co-operation and research in the management of water resources, an issue which had been identified as a significant limiting factor for harmonious development in many regions and countries of the world.

#### **International Commission on Irrigation and Drainage (ICID)**

The mission of the ICID is to stimulate and promote the development of the management of water and land resources for irrigation, drainage, flood control and river training applications, including research and development and capacity building.

## CONTENTS

### SESSION 1: FUTURE FLOOD RISK MANAGEMENT STRATEGIES

- 01 - Stress-testing Design Allowances to Uncertainties in Future Climate: The Case of Flooding**  
Conor Murphy, Satish Bastola, John Sweeney (*Dept. of Geography, National University of Ireland, Maynooth*).....4
- 02 - The Dublin FloodResilienCity project within a European surface water management context.**  
Tony Maguire (*Dublin City Council*), Ronnie Falconer (*Jacobs Engineering, Ireland*).....17

### SESSION 2: FORECASTING AND COMMUNICATION OF RISK

- 03 - Strategic Review of options for flood forecasting and warning in Ireland**  
Jeremy Benn, Sarah Conroy (*JBA Consulting*) and Brian Golding (*UK Meteorological Office*).....28
- 04 - Innovative decision support systems for water management : Examples from the Netherlands**  
Sander Loos, T.S. Knippers (*Hydrologic B.V.*), A.H. Lobbrecht, (*Hydrologic B.V. and UNESCO-IHE, Delft*), and S. Velickov (*Hydrologic Research*).....40
- 05 - Improving communication strategies for effective flood risk management**  
Roisín Bradford and John O’ Sullivan (*UCD*).....52

### SESSION 3: IMPACTS OF LAND USE CHANGE

- 06 - Impact assessment of urbanisation on hydrology for the river Tolka in Dublin, Ireland: A case study of remote sensing supported hydrological modelling**  
Boud Verbeiren, van de VOORDE T., Canters F. (*Vrije Universiteit Brussel*), Binard M., Cornet Y. (*Université de Liège*), van der Kwast J., Engelen G. (*Instelling voor Technologisch Onderzoek, Mol*), and Batelaan O. (*Vrije Universiteit Brussel and Katholieke Universiteit Leuven, Heverlee*).....64
- 07 - Impact of blanket peat forest harvesting on stream flow regime – A case study in the Burrishoole catchment, Co. Mayo.**  
Liwen Xiao, Michael Rodgers, Mark O’Connor, Connie O’Driscoll, Zaki-ul-zaman Asam (*NUI Galway*) Mark Robinson (*Centre for Ecology and Hydrology*)  
.....76

**SESSION 4: WATER RESOURCES MANAGEMENT**

**08 - A national groundwater recharge map for Ireland**

**Natalya Hunter Williams**, Monica Lee, Caoimhe Hickey, Peter Cooney (*Geological Survey of Ireland*), Bruce Misstear, Paul Johnston (*TCD*), Donal Daly (*EPA*).....89

**09 - Evaluating the effectiveness of the nitrates directive in Ireland for nutrient loss – The Agricultural Catchments Programme**

Alice Melland, P-E Mellander, M Shore, M Cushen, S Mechan, P Murphy, D Wall, G Shortle (*Teagasc*) and P. Jordan (*Teagasc and University of Ulster, Coleraine*) .....110

**ADDITIONAL PAPERS:**

**10 – Data architecture for location aware smarter water sensor visualisation**

Eli M. Dow, Steven Schmidt, Thomas Fitzsimmons, Doug Milvaney (*IBM*) .....123
